1. Account name

1.1 Family Member Account

2. What was the last dividend rate?

2.1 Previous dividend rates can be found on our website www.no1copperpot.com.

2.2 The dividend rate is your share of our profits which is agreed at the Annual General Meeting (AGM). The dividend is calculated daily based on the balance at the close of business each working day. It is paid once a year into the Member Account on the following working day after the AGM. Dividends apply to savings held within this account between 1st October and 30th September (this is the Credit Unions previous financial year). Dividend payments are not guaranteed.

3. Can No1 CopperPot change the dividend rate?

3.1 No, the dividend rate is proposed by the Credit Union, based on a variety of factors such as financial performance, cash flow, market interest rates, and growth plans. Members then vote at the Annual General meeting to agree the dividend rate and it is paid shortly after.

4. What would the estimated balance be after 12 months based on a monthly £50 deposit?

4.1 If the first deposit took place at the beginning of the Credit Union's financial year, after 12 months a member would have a savings balance of £600, the dividend paid (after the AGM) would be £4.06, making a total of £604.06. This estimated balance is based on the 2022 dividend rate of 2.25% AER, which is subject to change. This is provided for illustrative purposes only and does not consider any withdrawals or changes to savings contributions.
